Applicant: Manoj K. Bhattacharyya et al.

Examiner: H. Jey Tsai

Serial No.: 10/735,941

Group Art Unit: 2812

Filed: Dec. 15, 2003

Docket No.: 10014277-2

Title: MAGNETIC SHIELDING FOR MRAM DEVICES

**DECLARATION OF PRIOR INVENTION UNDER 37 C.F.R. § 1.131**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir/Madam:

This Declaration is submitted to establish prior invention of the subject matter of the present patent application. The person making this Declaration is the joint inventor, Anthony Peter Holden.

Accompanying this Declaration are Exhibits A through C to establish conception of the subject matter of the present patent application in the United States prior to the filing date of January 15, 2002, of U.S. Patent Application Pub. No. 2003/0132494 ("Tuttle et al.") coupled with due diligence from prior to the Tuttle et al. filing date to the April 18, 2002 filing date of the parent of the present patent application (i.e., constructive reduction to practice).

The present application (application no. 10/735,941, filed December 15, 2003, and assigned HP File No. 10014277-2) presents claims that were withdrawn from consideration in the parent application (application no. 10/125,095, filed April 18, 2002, and assigned HP File No. 10014277-1) as being directed to a non-elected invention.

Exhibit A (2 pages) includes a redacted HP Invention Disclosure submitted by the joint inventors Manoj Bhattacharyya, Darrel Bloomquist, and Anthony Holden and received by the HP Legal Department prior to January 15, 2002. In addition, this invention disclosure was witnessed prior to January 15, 2002. This invention disclosure was assigned HP Patent Disclosure No. 10014277 and describes subject matter of the present patent application.

Exhibit B (2 pages) includes a redacted HP Invention Disclosure submitted by the joint inventors Sarah Brandenberger, Darrel Bloomquist, and Manoj Bhattacharyya and received by the HP Legal Department prior to January 15, 2002. In addition, this invention disclosure was witnessed prior to January 15, 2002. This invention disclosure was assigned HP Patent Disclosure No. 10014284 and describes subject matter of the present patent.

**Declaration under 37 C.F.R. § 1.131**

**Applicant:** Manoj K. Bhattacharyya et al.

**Serial No.:** 10/735,941

**Filed:** Dec. 15, 2003

**Docket No.:** 10014277-2

**Title:** MAGNETIC SHIELDING FOR MRAM DEVICES

---

application. The HP Patent Disclosure Nos. 10014277 (Exhibit A) and 10014284 (Exhibit B) were combined for purposes of preparation and filing of the patent application.

Exhibit C (8 pages, including attachments) is the Declaration of Matthew B. McNutt, the patent attorney assigned to prepare the parent of the present application, showing due diligence in preparation of the patent application from prior to the Tuttle et al. January 15, 2002, filing date to the April 18, 2002 filing date of the parent of the present patent application.

From these exhibits, it can be seen that the subject matter of the present patent application was conceived prior to the filing date of January 15, 2002 of U.S. Patent Application Pub. No. 2003/0132494, coupled with due diligence from prior to the filing date of the reference to the filing date of the parent of the present patent application (i.e., constructive reduction to practice).

As a person signing below, I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

## Description of Invention:

## A. Description of the construction and operation of the invention (

A coating of soft magnetic material can be applied on top of outside plastic or other material. Coating

Multiple layers with different orientations easy axes to block fields of different orientations can also be added

An alternate design/implementation can be making the packaging material out of magnetically soft plastic.

## B. Advantages of the invention over what has been done before.

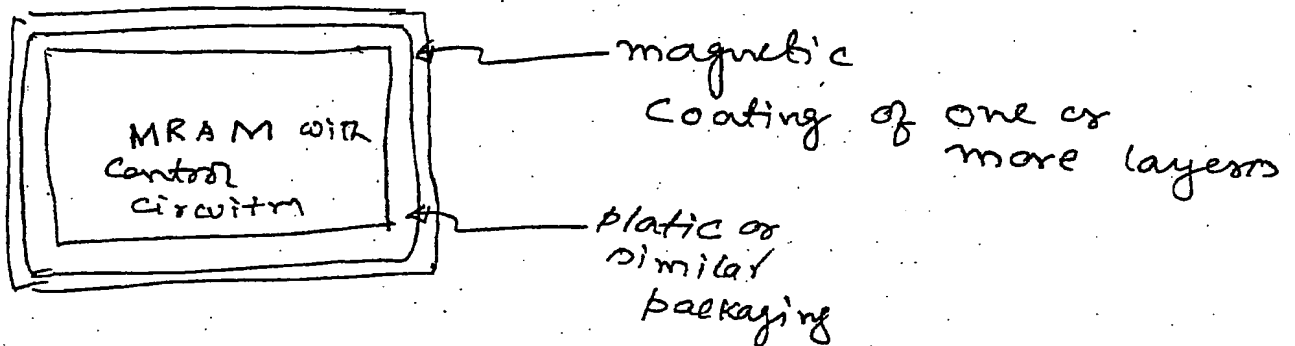

MRAM cells are switched by applying small (of the order of 50-100 Oe) magnetic fields generated by write conductors (word and bit lines). The magnetically written bits are thus sensitive to external fields. The stray magnetic fields can be earth magnetic field or any field coming out of a motor or even devices.

Description of Invention:

A. Description of the construction and operation of the invention (

provide shielding similar to faraday cage or solid shield more shielded  
This can either be on the chip or external packaging.

B. Advantages of the invention over what has been done before.

as far as I know - no shielding has been used on MRAM. This would ~~also~~ prevent outside fields from writing - The casing may also have the property of distributing temperature.

Write in Dark Ink on Front Side Only, Please

C. Problems solved by the invention.

prevents external fields "corrupting" Mram

D. Prior solutions and their disadvantages (If available, attach copies of product literature, technical articles, patents, etc.).

Don't know of prior solutions

**DECLARATION OF MATTHEW B. MCNUTT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir/Madam:

This Declaration is submitted in support of Declarations of Prior Invention Under 37 C.F.R. 1.131 submitted by joint inventors of the above-referenced patent application. This Declaration is submitted to establish due diligence in the preparation and filing of the parent of the above-referenced patent application in the United States from prior to the filing date of January 15, 2002, of U.S. Patent Application Pub. No. 2003/0132494 ("Tuttle et al.") to the April 18, 2002 filing date of the parent of the above-referenced patent application (i.e., constructive reduction to practice).

I, Matthew B. McNutt, state as follows:

1. I am the patent attorney responsible for preparing the above-referenced patent application (serial no. 10/735,941, filed December 15, 2003, and assigned HP File No. 10014277-2), and also the parent of the above-referenced patent application (serial no. 10/125,095, filed April 18, 2002, and assigned HP File No. 10014277-1).
2. The above-referenced patent application (HP File No. 10014277-2) presents claims that were withdrawn from consideration in the parent patent application (HP File No. 10014277-1) as being directed to a non-elected invention.
3. I have been employed by the law firm of Dicke, Billig & Czaja since 2001.
4. I received invention disclosures (attached as Exhibit A and Exhibit B to the Declarations of Manoj Bhattacharyya, Anthony Holden, and Sarah Brandenberger) for purposes of preparing the parent of the above-referenced patent application on the subject invention of the invention disclosures on or around September 5, 2001 (*see* Exhibit 1, attached).

**Declaration of Matthew B. McNutt**

Applicant: Manoj K. Bhattacharyya et al.

Serial No.: 10/735,941

Filed: Dec. 15, 2003

Docket No.: 10014277-2

Title: MAGNETIC SHIELDING FOR MRAM DEVICES

---

5. Upon receiving the invention disclosures, they were placed in line to be prepared.
6. During the period between approximately September 5, 2001 and January 15, 2002, the parent of the above-referenced patent application was one of a number of backlogged unrelated cases on which I worked reasonably hard during this period and carried out expeditiously. My practice at the time was to attend to the preparation of patent application cases having bar dates first. I attended to the remaining patent application cases (including the parent of the above-reference patent application) generally in the chronological order in which the patent application cases were received.
7. An invoice issued by Dicke, Billig & Czaja for professional services rendered in preparing the parent of the above-referenced application is attached as Exhibit 2. In the invoice, the initials "MBM" (for "Matthew B. McNutt") are my initials.
8. As indicated on the invoice, I conducted a telephone interview with the inventors to discuss the subject invention of the invention disclosures on January 16, 2002.
9. After I interviewed the inventors on January 16, 2002, and continuing until on or around January 31, 2002, I prepared the parent of the above-referenced patent application.
10. On February 4, 2004, patent attorney Steve Dicke of Dicke, Billig & Czaja emailed to HP Managing Attorney Steven R. Ormiston an inventor-approved draft of the parent of the above-referenced patent application (*see* Exhibit 3, attached).
11. On February 13, 2002, HP Managing Attorney Steven R. Ormiston emailed patent attorney Steve Dicke with comments on the parent of the above-referenced patent application (*see* Exhibit 3, attached).
12. Between February 13, 2002 and about April 1, 2002, I revised the patent application in view of the comments of HP Managing Attorney Steven R. Ormiston.

**Declaration of Matthew B. McNutt**

Applicant: Manoj K. Bhattacharyya et al.

Serial No.: 10/735,941

Filed: Dec. 15, 2003

Docket No.: 10014277-2

Title: MAGNETIC SHIELDING FOR MRAM DEVICES

---

13. On April 2, 2002, a Declaration and Power of Attorney and Assignment documents for the parent of the above-referenced patent application were sent to HP Legal Assistant Chris Griffin for obtaining inventor signatures (*see* Exhibit 4, attached).

14. The declaration was executed by the inventors on or around, 2002 (*see* Exhibit 5, attached).

15. The parent of the above-referenced patent application was subsequently with the U.S. Patent and Trademark Office on April 18, 2002.

As a person signing below, I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Hi Matt,

Please proceed with preparing a patent application based on the above-referenced file. You may contact the inventors directly for further information you will need in order to prepare this application. The HP primary technical contact is Manoj Bhattacharyya of Palo Alto, California, who can be reached at (650) 857-7475. This application does require a search and the preparation of EP claims and abstract.

If you have any questions regarding this matter or HP procedures, which we may want to touch base on, please contact Steve or me at (612) 573-0439.

Regards,

DICKE, BILLIG & CZAJA, P.A.

Dear Chris:

Enclosed are the Declaration and Power of Attorney and Assignment documents for inventor signature for the above-identified application. This application has already been reviewed and approved for filing by the inventor and Steve Ormiston. Please have the inventor execute these documents.

Please return the executed Declaration and Power of Attorney document to my attention via overnight Federal Express. We will then file the application, with formal papers, with the U.S. Patent Office. It is our understanding that you will retain the Assignment document for filing by HP at a later date.

If you have any questions regarding this matter, please feel free to contact me at (612) 573-0439.

Sincerely,

**DECLARATION OF PRIOR INVENTION UNDER 37 C.F.R. § 1.131**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir/Madam:

This Declaration is submitted to establish prior invention of the subject matter of the present patent application. The person making this Declaration is the joint inventor, Sarah Morris Brandenberger.

Accompanying this Declaration are Exhibits A through C to establish conception of the subject matter of the present patent application in the United States prior to the filing date of January 15, 2002, of U.S. Patent Application Pub. No. 2003/0132494 ("Tuttle et al.") coupled with due diligence from prior to the Tuttle et al. filing date to the April 18, 2002 filing date of the parent of the present patent application (i.e., constructive reduction to practice).

The present application (application no. 10/735,941, filed December 15, 2003, and assigned HP File No. 10014277-2) presents claims that were withdrawn from consideration in the parent application (application no. 10/125,095, filed April 18, 2002, and assigned HP File No. 10014277-1) as being directed to a non-elected invention.

Exhibit A (2 pages) includes a redacted HP Invention Disclosure submitted by the joint inventors Manoj Bhattacharyya, Darrel Bloomquist, and Anthony Holden and received by the HP Legal Department prior to January 15, 2002. In addition, this invention disclosure was witnessed prior to January 15, 2002. This invention disclosure was assigned HP Patent Disclosure No. 10014277 and describes subject matter of the present patent application.

Exhibit B (2 pages) includes a redacted HP Invention Disclosure submitted by the joint inventors Sarah Brandenberger, Darrel Bloomquist, and Manoj Bhattacharyya and received by the HP Legal Department prior to January 15, 2002. In addition, this invention disclosure was witnessed prior to January 15, 2002. This invention disclosure was assigned HP Patent Disclosure No. 10014284 and describes subject matter of the present patent

Declaration under 37 C.F.R. § 1.131

Applicant: Manoj K. Bhattacharyya et al.	Examiner: H. Jey Tsai
Serial No.: 10/735,941	Group Art Unit: 2812
Filed: Dec. 15, 2003	Docket No.: 10014277-2
Title: <u>MAGNETIC SHIELDING FOR MRAM DEVICES</u>	

**DECLARATION OF MATTHEW B. MCNUTT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir/Madam:

This Declaration is submitted in support of Declarations of Prior Invention Under 37 C.F.R. 1.131 submitted by joint inventors of the above-referenced patent application. This Declaration is submitted to establish due diligence in the preparation and filing of the parent of the above-referenced patent application in the United States from prior to the filing date of January 15, 2002, of U.S. Patent Application Pub. No. 2003/0132494 ("Tuttle et al.") to the April 18, 2002 filing date of the parent of the above-referenced patent application (i.e., constructive reduction to practice).

I, Matthew B. McNutt, state as follows:

1. I am the patent attorney responsible for preparing the above-referenced patent application (serial no. 10/735,941, filed December 15, 2003, and assigned HP File No. 10014277-2), and also the parent of the above-referenced patent application (serial no. 10/125,095, filed April 18, 2002, and assigned HP File No. 10014277-1).
2. The above-referenced patent application (HP File No. 10014277-2) presents claims that were withdrawn from consideration in the parent patent application (HP File No. 10014277-1) as being directed to a non-elected invention.
3. I have been employed by the law firm of Dicke, Billig & Czaja since 2001.
4. I received invention disclosures (attached as Exhibit A and Exhibit B to the Declarations of Manoj Bhattacharyya, Anthony Holden, and Sarah Brandenberger) for purposes of preparing the parent of the above-referenced patent application on the subject invention of the invention disclosures on or around September 5, 2001 (*see* Exhibit 1, attached).

5. Upon receiving the invention disclosures, they were placed in line to be prepared.
6. During the period between approximately September 5, 2001 and January 15, 2002, the parent of the above-referenced patent application was one of a number of backlogged unrelated cases on which I worked reasonably hard during this period and carried out expeditiously. My practice at the time was to attend to the preparation of patent application cases having bar dates first. I attended to the remaining patent application cases (including the parent of the above-reference patent application) generally in the chronological order in which the patent application cases were received.
7. An invoice issued by Dicke, Billig & Czaja for professional services rendered in preparing the parent of the above-referenced application is attached as Exhibit 2. In the invoice, the initials "MBM" (for "Matthew B. McNutt") are my initials.
8. As indicated on the invoice, I conducted a telephone interview with the inventors to discuss the subject invention of the invention disclosures on January 16, 2002.
9. After I interviewed the inventors on January 16, 2002, and continuing until on or around January 31, 2002, I prepared the parent of the above-referenced patent application.
10. On February 4, 2004, patent attorney Steve Dicke of Dicke, Billig & Czaja emailed to HP Managing Attorney Steven R. Ormiston an inventor-approved draft of the parent of the above-referenced patent application (*see* Exhibit 3, attached).
11. On February 13, 2002, HP Managing Attorney Steven R. Ormiston emailed patent attorney Steve Dicke with comments on the parent of the above-referenced patent application (*see* Exhibit 3, attached).
12. Between February 13, 2002 and about April 1, 2002, I revised the patent application in view of the comments of HP Managing Attorney Steven R. Ormiston.

13. On April 2, 2002, a Declaration and Power of Attorney and Assignment documents for the parent of the above-referenced patent application were sent to HP Legal Assistant Chris Griffin for obtaining inventor signatures (*see* Exhibit 4, attached).

14. The declaration was executed by the inventors on or around, 2002 (*see* Exhibit 5, attached).

15. The parent of the above-referenced patent application was subsequently with the U.S. Patent and Trademark Office on April 18, 2002.

As a person signing below, I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Hi Matt,

Please proceed with preparing a patent application based on the above-referenced file. You may contact the inventors directly for further information you will need in order to prepare this application. The HP primary technical contact is Manoj Bhattacharyya of Palo Alto, California, who can be reached at (650) 857-7475. This application does require a search and the preparation of EP claims and abstract.

If you have any questions regarding this matter or HP procedures, which we may want to touch base on, please contact Steve or me at (612) 573-0439.

Regards,

DICKE, BILLIG & CZAJA, P.A.

Dear Chris:

Enclosed are the Declaration and Power of Attorney and Assignment documents for inventor signature for the above-identified application. This application has already been reviewed and approved for filing by the inventor and Steve Ormiston. Please have the inventor execute these documents.

Please return the executed Declaration and Power of Attorney document to my attention via overnight Federal Express. We will then file the application, with formal papers, with the U.S. Patent Office. It is our understanding that you will retain the Assignment document for filing by HP at a later date.

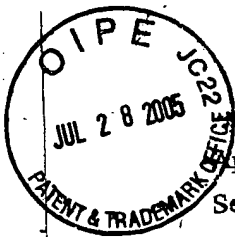

If you have any questions regarding this matter, please feel free to contact me at (612) 573-0439.

Sincerely,

**DECLARATION OF PRIOR INVENTION UNDER 37 C.F.R. § 1.131**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir/Madam:

This Declaration is submitted to establish prior invention of the subject matter of the present patent application. The person making this Declaration is the joint inventor, Manoj K. Bhattacharyya.

Accompanying this Declaration are Exhibits A through C to establish conception of the subject matter of the present patent application in the United States prior to the filing date of January 15, 2002, of U.S. Patent Application Pub. No. 2003/0132494 ("Tuttle et al.") coupled with due diligence from prior to the Tuttle et al. filing date to the April 18, 2002 filing date of the parent of the present patent application (i.e., constructive reduction to practice).

The present application (application no. 10/735,941, filed December 15, 2003, and assigned HP File No. 10014277-2) presents claims that were withdrawn from consideration in the parent application (application no. 10/125,095, filed April 18, 2002, and assigned HP File No. 10014277-1) as being directed to a non-elected invention.

Exhibit A (2 pages) includes a redacted HP Invention Disclosure submitted by the joint inventors Manoj Bhattacharyya, Darrel Bloomquist, and Anthony Holden and received by the HP Legal Department prior to January 15, 2002. In addition, this invention disclosure was witnessed prior to January 15, 2002. This invention disclosure was assigned HP Patent Disclosure No. 10014277 and describes subject matter of the present patent application.

Exhibit B (2 pages) includes a redacted HP Invention Disclosure submitted by the joint inventors Sarah Brandenberger, Darrel Bloomquist, and Manoj Bhattacharyya and received by the HP Legal Department prior to January 15, 2002. In addition, this invention disclosure was witnessed prior to January 15, 2002. This invention disclosure was assigned HP Patent Disclosure No. 10014284 and describes subject matter of the present patent

Declaration under 37 C.F.R. § 1.131  
Applicant: Manoj K. Bhattacharyya et al.  
Serial No.: 10/735,941  
Filed: Dec. 15, 2003  
Docket No.: 10014277-2  
Title: MAGNETIC SHIELDING FOR MRAM DEVICES

application. The HP Patent Disclosure Nos. 10014277 (Exhibit A) and 10014284 (Exhibit B) were combined for purposes of preparation and filing of the patent application.

Exhibit C (8 pages, including attachments) is the Declaration of Matthew B. McNutt, the patent attorney assigned to prepare the parent of the present application, showing due diligence in preparation of the patent application from prior to the Tuttle et al. January 15, 2002, filing date to the April 18, 2002 filing date of the parent of the present patent application.

From these exhibits, it can be seen that the subject matter of the present patent application was conceived prior to the filing date of January 15, 2002 of U.S. Patent Application Pub. No. 2003/0132494, coupled with due diligence from prior to the filing date of the reference to the filing date of the parent of the present patent application (i.e., constructive reduction to practice).

As a person signing below, I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

## Description of Invention:

## A. Description of the construction and operation of the invention (

A coating of soft magnetic material can be applied on top of outside plastic or other packaging material. Multiple layers with different orientations easy axes to block fields of different orientations can also be added.

An alternate design/implementation can be making the packaging material out of magnetically soft plastic.

## B. Advantages of the invention over what has been done before.

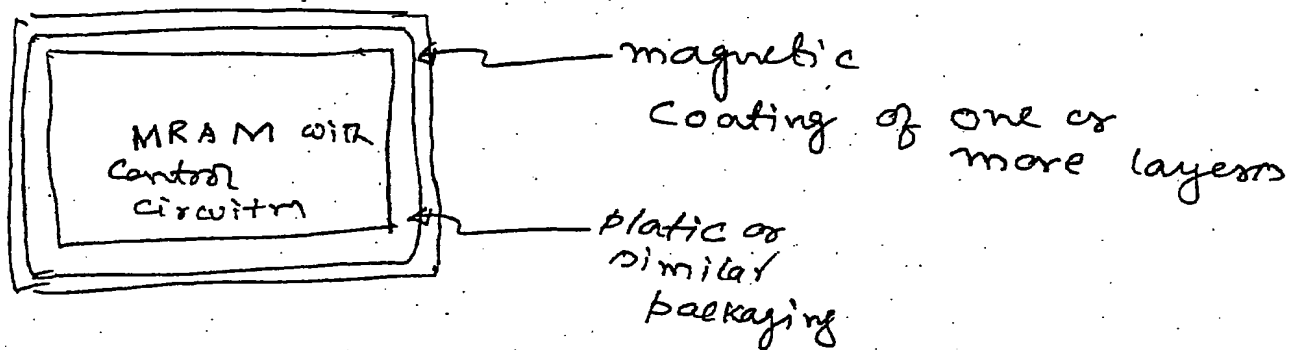

MRAM cells are switched by applying small (of the order of 50-100 Oe) magnetic fields generated by write conductors (word and bit lines). The magnetically written bits are thus sensitive to external fields. The magnetic fields can be earth magnetic field or any field coming out of a motor or such devices.

**DECLARATION OF MATTHEW B. MCNUTT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir/Madam:

This Declaration is submitted in support of Declarations of Prior Invention Under 37 C.F.R. 1.131 submitted by joint inventors of the above-referenced patent application. This Declaration is submitted to establish due diligence in the preparation and filing of the parent of the above-referenced patent application in the United States from prior to the filing date of January 15, 2002, of U.S. Patent Application Pub. No. 2003/0132494 ("Tuttle et al.") to the April 18, 2002 filing date of the parent of the above-referenced patent application (i.e., constructive reduction to practice).

I, Matthew B. McNutt, state as follows:

1. I am the patent attorney responsible for preparing the above-referenced patent application (serial no. 10/735,941, filed December 15, 2003, and assigned HP File No. 10014277-2), and also the parent of the above-referenced patent application (serial no. 10/125,095, filed April 18, 2002, and assigned HP File No. 10014277-1).
2. The above-referenced patent application (HP File No. 10014277-2) presents claims that were withdrawn from consideration in the parent patent application (HP File No. 10014277-1) as being directed to a non-elected invention.
3. I have been employed by the law firm of Dicke, Billig & Czaja since 2001.
4. I received invention disclosures (attached as Exhibit A and Exhibit B to the Declarations of Manoj Bhattacharyya, Anthony Holden, and Sarah Brandenberger) for purposes of preparing the parent of the above-referenced patent application on the subject invention of the invention disclosures on or around September 5, 2001 (*see* Exhibit 1, attached).

Steve:

Attached is a patent application for the HP Invention Disclosure titled "Permalloy/Soft Magnetic Material Coating/Shielding to Protect MRAM" (HP docket no. 10014277-1; DBC file no. H302.226.101). EP claims and abstract are also attached.

The application has been reviewed and approved by the inventors.

Regards,

Steven E. Dicke

Re: New U.S. Patent Application for:  
**MAGNETIC SHIELDING FOR MRAM DEVICES**  
HP File No.: 10014277-1  
DBC File No.: 302.226.101

Dear Chris:

Enclosed are the Declaration and Power of Attorney and Assignment documents for inventor signature for the above-identified application. This application has already been reviewed and approved for filing by the inventor and Steve Ormiston. Please have the inventor execute these documents.

Please return the executed Declaration and Power of Attorney document to my attention via overnight Federal Express. We will then file the application, with formal papers, with the U.S. Patent Office. It is our understanding that you will retain the Assignment document for filing by HP at a later date.

If you have any questions regarding this matter, please feel free to contact me at (612) 573-0439.

Sincerely,

DICKE, BILLIG & CZAJA, P.A.
